DETAILED ACTION

Specification

1. The amendment filed 1/28/2008 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicant has never previously taught using the device as a light emitting diode.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 36, 37, 39, 40, and 47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant has never taught the use of such a device as a light emitting diode.

Allowable Subject Matter

3. Claims 41,42,45,47 and 48 are allowed.
4. The following is an examiner's statement of reasons for allowance: Prior art fails to teach an upstanding nanowhisker doped of a first conductivity with a bulk semiconductor of an opposite conductivity in contact with the nanowhisker such that a pn junction is formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Applicant's arguments filed 1/28/2008 have been fully considered but they are not persuasive. In regards to the new matter rejection applicant has never explicitly disclosed a light emitter. The disclosure of 10/613,071 is referenced in regards to the process of making nanowhiskers and not using the nanowhiskers of application 10/814630 is specific embodiments therein. Since the disclosure never explicitly taught a light emitter the rejection is maintained.
5. Applicant's arguments, see pages 13 and 14, filed 1/28/2008, with respect to the modification Yazawa have been fully considered and are persuasive. The 103(a) of 10/29/2007 has been withdrawn.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
